Dear Mr. Schustik:

Enclosed herewith is Amendment No. 4 to State of New York Radioactive Materials License No. 955-0139, Reference No. 1, assigned to your company to possess and use radioactive materials licensed therein pursuant to the State of New York Industrial Code Rule No. 38, "Radiation Protection" (12 NYCRR 38), as amended effective September 1, 1971.

Conditions as indicated therein have been added and/or amended in accordance with the referenced application, subject to said Code Rule. Accordingly, Amendment No. 4 supersedes Amendment No. 3, and Condition 4 of this license dated January 21, 1965 and of Amendment No. 2 issued thereto.

IMPORTANT:

- A. This letter shall be retained with this license.
- B. Your attention is directed to Section 38.7 entitled "Security". The written request submitted to us for a waiver from filing a security bond pursuant to subdivision (c) has been approved, conditioned in the license, and accordingly, your company has fulfilled the requirements of this section at this time. Pursuant to the Code Rule, this waiver shall be in effect during the entire period of your license. It follows that: (1) any changes in your company financial responsibility to assure reimbursement to the Industrial Commissioner pursuant to subdivision (c) which may affect our waiver approval must be brought to our

Should your company decide to seek a continuation of the waiver approval pursuant to subdivision (c), your company must provide us with a final audited balance sheet for the past year certified by a certified public accountant.

Please contact us directly if you have any questions, or if we may be of further assistance to you concerning this matter.
